“Influenza Vaccine Effectiveness and Looking Ahead in 2022”

Presented by:

Emily Toth Martin, Ph.D.
Associate Professor, Epidemiology
University of Michigan School of Public Health

Abstract: Influenza vaccine effectiveness has been affected in recent years by the emergence of drifted strains and changes in the vaccine manufacturing process. This seminar will review key factors impacting influenza vaccine performance in three past seasons and will look ahead to what we might For more information on the weekly PharmSci department
