

University of Michigan College of Pharmacy
Core Pharmacy Practice Skills

Core Threads	Practice Skills
Pharmacists' Patient Care Process	Data Collection
	Drug Therapy Assessment
	Care Plan
	Comprehensive Medication Review
	Patient Care Documentation (e.g., SOAP, pharmacokinetics and chart notes)
	Implementation (see also <i>Verbal and Written Communication</i>)
	Interprofessional Health Care Provider Collaboration
	Follow-Up Monitoring and Evaluation
	OTC Triage Counseling (Quest Scholar)
	Patient-Centered Care: Cultural Competence
	Patient-Centered Care: Health Literacy
	Personalized Medicine/Pharmacogenomics
	Pharmacokinetics
Disease Management/ Physical Assessment	Anaphylaxis Device Counseling Skills
	Anticoagulation Patient Assessment/Therapy Management/Counseling
	Antimicrobial Patient Assessment/Therapy Management/Counseling
	Asthma/COPD Patient Assessment/Therapy Management/Counseling
	Asthma/COPD Device Counseling: Inhalers
	Atherosclerotic Cardiovascular Disease Risk Assessment
	Diabetes Patient Assessment/Therapy Management/Counseling
	Diabetes: Glucose Monitor Device Counseling
	Diabetes: Insulin Mixing and Administration
	Hypertension Patient Assessment/Therapy Management/Counseling
	Hypertension: Automatic Blood Pressure Assessment
	Hypertension: Manual Blood Pressure Assessment
	Overdose: Naloxone Administration
	Tobacco Cessation Patient Assessment/Therapy Management/Counseling
	Physical Assessment: ECG
	Physical Assessment: Edema Assessment
	Physical Assessment: Foot Exam
	Physical Assessment: Heart Sounds
	Physical Assessment: Lung Sounds
	Physical Assessment: Orthostatic Blood Pressure
Physical Assessment: Pain Scales	
Physical Assessment: Radial Pulses	
Physical Assessment: Skin Assessment	
Physical Assessment: Strep Throat Point-of-Care Testing	
Evidence-Based Medicine	Analysis of Trial Design/Validity
	Clinical Decision Making: Application of Evidence
	Point-of-Care Resources (print, electronic)
Health Systems	Compounding, Non-sterile
	Compounding, Sterile
	Distribution/Dispensing
	Informatics/Technology
	Pharmaceutical Calculations
	Practice Management (e.g., Business Plan, Pharmacoeconomics, Reimbursement)
Quality and Safety Outcomes Assessment	
Public Health	Cardiopulmonary Resuscitation
	Immunization Training
	Preventive Health and Wellness
Verbal Communication	Case Presentation
	Health Care Provider Communication
	Formal Presentation
	Patient-Centered Care: Communication of Sensitive Topics
	Patient-Centered Care: Communication with Specific/Diverse Populations
	Patient-Centered Care: Medication History
	Patient-Centered Care: Motivational Interviewing
Patient-Centered Care: Counseling	
Written Communication	Health Literacy/Provision of Information to Patients
	Professional/Scientific Writing
