Hi Everyone,

ITS is offering training on interactive video quizzing in Canvas. This allows you to add in quiz questions into a pre-recorded lecture video. This is a great way to see if students are watching your lecture as you will see if they answered the questions in your video. See below for training dates. If the dates below do not work for you they also offer individual consultations by filling out this form: ITS Teaching & Learning Consulting Form. I am also available for appointments too.

Best regards,
Brian
