**Subject:** research re engagement update  
**Date:** Tuesday, June 09, 2020 6:45:09 PM

---

Hi everyone. I just wanted to send you an update regarding our research re engagement process. The most exciting announcement is that for those of you that are currently on self-quarantine due to travel outside of Michigan in the last 14 days, you no longer need to worry about that provided you have not traveled on an airplane. The travel outside of MI question has now been removed from the screening questionnaire. If you have been on an airplane in the last 14 days, you will need to stay away for 14 days. Sorry about that.

As another update, Pharmacy's re research ramp up has been going very well and I'm hearing we are ahead of many of the other units. I'm also happy to report that there have not been any COVID cases in pharmacy or elsewhere in research buildings to my knowledge. Everyone that has come into the building has been very helpful, patient, and compliant with our procedures. So THANK YOU!. If there is anyone whose research laboratory is in pharmacy that I have missed in this process, please send me an email and we will discuss adding you and your lab. Per the governor's orders and the university's directive, those of us doing office based work or dry lab work, need to continue working from home. If you need something from the building please let me know and I will work with you to get what you need. Pat and Nicole can also help you get the things you need.

I'm hopeful our labs up at NCRC will be re engaging very shortly! However, if you have further questions please let me know.

Thanks  
Vicki
