Hello everyone. I wanted to bring to you attention a change regarding wearing a mask when you are alone in the lab and the door is closed. If you do not work in a lab please stop reading now 😊

I was just informed that there was a new executive order from the Governor that now requires that everyone working in a shared lab must wear a face covering/mask even if you are in the lab by yourself. I know that many of you will point out that working in a lab by yourself with the door closed, is no different that working in an office by yourself with the door closed, and that in the office situation you do not need to wear a mask, but right now we need to follow the Governor’s orders. I’m sorry about this inconsistency.

Please let me know if you have questions

Vicki
