**Subject:** Two updates in one day?  
**Date:** Tuesday, March 31, 2020 6:09:58 PM

---

I take one weekend off, and now the updates are piling up! Lets get to them.

**P1s , P2s, P3s, P4s:** Lots of you already signed up to help at the hospital. We updated the Google doc so that we could take and PharmD student and so you could properly input phone/email. Some asked if they should complete form if already an intern. You probably should not have to, but what can it hurt? Here is the link again for you **Please complete this form if you want to help the Pharmacy Dept:** <https://docs.google.com/forms/d/12e6zPn67yan3WmW6TB-HAAD8-HSFjgcmAh8-ODXYa8U/edit?ts=5e833738>

From the Office of Experiential Education:

**P3 IPPE Students:** We really want to thank you for your patience, diligence and understanding as the COP has worked to develop plans for P3 students to complete IPPE requirements prior to the start of your P4 year. It has been very challenging because of the frequent and unpredictable changes that are happening at our health system partners.

**IPPE Direct Patient Care (DPC) Rotations:** We have worked successfully with preceptors and those students enrolled in DPC rotations so that all students can complete their DPC rotations remotely. All students should be clear on their plan for completing DPC requirements. If you have questions, please contact the OEE at [cop-et@umich.edu](mailto:cop-et@umich.edu).

**IPPE Health System/Hospital (HS/H) Rotations:** You fall into one of these groups:

- § For students assigned to Dr. M. Kraft at Michigan Medicine, plans have been implemented that enable those students to complete their IPPE HS/H requirements. Dr. Kraft has been in communication directly with his students regarding those plans. This includes remote activities, as well as some nonsterile compounding activities. Please note we are working to open more hand sanitizer compounding slots up for IPPE HS/H students who need the hours.
- § Several students have non-Michigan Medicine preceptors who are able to continue their rotations remotely. For those students, your preceptor has been in direct communication with you regarding your plan for the remainder of your rotation.
- § Several students have non-Michigan Medicine preceptors who are not able to continue their rotations remotely. For these students the OEE is hoping to finalize plans very shortly. These students require individualized plans because they have each accumulated a different number of IPPE hours towards completion of their IPPE and therefore have different needs. The OEE will be contacting these students within the next few days to provide details of their individualized plans.

We appreciate your ongoing cooperation as we continue to find solutions to meet your experiential education requirements.

How about some fun stuff?

I have not walked much this week, but I have not seen this yet in my neighborhood: <https://www.cnn.com/2020/03/31/europe/wild-goats-wales-streets-lockdown-scli-gbr/index.html>

I see that you have added a lot to our COP Spotify list. What does Mona Lisa have to do with COVID? Also whats with all the songs with naughty words?  
<https://open.spotify.com/playlist/0H03vSXT9FFe0JAnbwWrpT7>

Running out of things to watch on TV? I am old school and still get NETFLIX on DVD!!! Yeah, I am old, but I did get to see Knives Out last night. Worth watching! Here is a binge watch play list from

Krestina and she wants you to add to it if you know something good to watch!
