

UM Pharmacy PRO Monthly Seminar (Open to the Public)

October 20, 2023, Friday, 3-4 PM (EST)

Zoom (open to the public): <https://umich.zoom.us/j/98091648048>

Novel Technologies for Immunotherapy

James Moon, Ph.D.

John G. Searle Professor of Pharmaceutical Sciences

College of Pharmacy, University of Michigan, Ann Arbor, MI 48109

New approaches are needed to improve the safety and efficacy of immunotherapies. We will present new strategies for modulating the gut microbiome and improving immunotherapies against cancer and autoimmune diseases.

We will also discuss emerging nanotechnologies for immune activation against cancer.
